## Summary

Full-stack web developer with a strong foundation in modern technologies and a passion for creating efficient, user-focused solutions. Demonstrated experience in blockchain integration and web application development through a professional internship at Labrys. Proven ability to work independently and collaboratively, consistently delivering projects on time. For more details about my technical expertise and projects, visit my portfolio.

## Key Skills

- Full-stack web development
- Web3 & blockchain integration
- Modern frontend frameworks (e.g., Next.js, React)
- Database management (e.g., MongoDB)
- RESTful API development
- Critical thinking, problem-solving, and communication skills

## Education

Diploma of Information Technology - Coder Academy, 2024

## Experience

Pump.Task – Task Management Web Application | Internship | 03/09/2024 - 07/11/2024  
Labrys Group Pty Ltd, Milton, QLD

- Developed a blockchain-integrated task management system with gamified incentives.
- Built features like customizable project creation, Kanban-style task boards, and detailed task management.
- Integrated Web3 functionalities, such as token rewards, wallet connections, and smart contract interaction.
- Used Next.js with T3 stack (TypeScript, TRPC, Tailwind CSS), ThirdWeb SDK, MongoDB, and Vercel.

## Key Projects

Explore detailed project descriptions, live demos, and technical documentation on my portfolio.

Highlighted projects include:

- [Portfolio](#) – Next.js (2024): Professional website showcasing my work and skills.
- [Pump.Task](#) – T3 Web3 App (2024): Blockchain-enabled task management app.
- [Pawfect Care](#) – Full-Stack App (2024): Veterinary clinic management system.
- [Customer Travel Profile](#) – API (2024): API for travel agency user management.
- [Escape Room](#) – Terminal App (2024): Interactive text-based game.
